- ALLYNE ANDRADE E SILVA

**‘BLACK BRAZILIAN FEMINISMS’
CONTRIBUTIONS TO TRANSNATIONAL FEMINISM**

And discuss the contributions of the black Brazilian feminist movement to transnational feminism. The presentation highlights strategies that activists in the black women's movement have used to challenge racism and sexism and the impact of their efforts vis-à-vis the black movement and women's movement as well as the Brazilian state. We are eager to discuss their experience and knowledge of transnational border-crossing practices; agency and resistance in global perspective; decolonization of theory, knowledge, and practice; egalitarian collaboration and alliance building; theories and practices that support critical consciousness, law and social change.
